

Convert problems into profits with Secure Signals!

Unauthorized users of video, VoIP and Internet services cost the industry more than \$12 billion annually. Add that to what you lose in internal theft, and you've got a huge issue... and a tremendous opportunity! Building upon more than 20 years of experience fighting internal and external cable theft, Secure Signals' results speak for themselves.

- \$46.5 million in net revenue for cable systems in 2007 from our cable piracy program
- 74% rate of recovery of unreturned customer equipment
- 90% of suspected employee theft interviews result in immediate termination of employment
- \$2,000 in restitution per account fraud case*
- \$4,000 in restitution per video piracy case*
- 35% more efficient full system audits

*Numbers based on average restitution of cases.
